Why move to Sage 50 Accounts?

sage

Features	TASBooks	Sage 50 Accounts
Report Designer	• Standard reports	• Customise and create your own reports • Includes a report wizard to take you through the process step-by-step • Easily edit invoices and add your company logo
Use of foreign currencies for banks, invoices and customer transactions	• Dual currency	• Foreign currency bank accounts available • Fluctuations in exchange rates can be difficult to manage. However, Sage 50 Accounts allows you to insert the exchange rate at point of invoice and at point of payment which allows you to account for the loss/gain on your P&L
Bank reconciliation	• Manual bank reconciliation	• Electronic reconciliation
Access data anywhere, anytime with Sage Drive	• No option to connect devices	• With connected users multiple users can access your accounts from various locations
Manage your business on the go	• No mobile apps available	**Sage 50 Accounts Tracker** • Get accurate information on business performance at your fingertips **Sage 50 Accounts Mobile Sales** • Allows you to create invoices on the go*
Schedule automatic backups	• Only backups reminder	• Ensure your backup data is always up-to-date by scheduling regular automatic backups. Meaning data recovery is quick and easy in the unlikely event of a problem
3rd party integration	• 1 developer	• 900+ developers • Access a diverse range of solutions, such as barcoding, EDI, service management, hire and rental as well as many industry specific applications • E-commerce integration with Sage Pay*
