# DIRECT DEBIT FOR SAGE 50

Direct Debits are the most efficient and cost-effective way for business to collect recurring or once off payments.

Works with all versions of Sage 50 Cloud Accounts

sage

Synergy Network

ACCOUNTING SOFTWARE

Features Include

Fully Integrated

The direct debit software posts the receipts and allocates it directly to Sage 50, this cuts out manual data entry and the errors that can occur with it!

User Defined Aging

Our software has the ability to define the aging periods to be used and our straight forward interface allows you to choose what works for your business.

Improve Credit Control

With our Direct Debit software you speed up your debt collection as there is no more waiting for a cheque in the post.

Reports

Print a report showing the breakdown of the direct debit instruction to the bank.

SEPA Compliant

Our software is fully compliant and compatible with all major banks.
